

# Security Process Management

## Deliver Value, Improve Decisions

### Security Process Management Suite

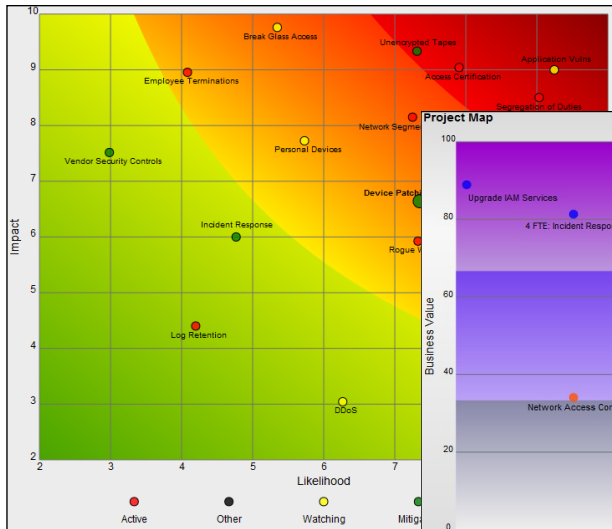

Third Defense provides visual, purpose-built SaaS applications:

- **Risk Communicator:** prioritize risks and investments
- **Risk Register:** track risks and projects
- **Metrics Manager:** communicate acceptable risk levels
- **Service Manager:** define and measure processes

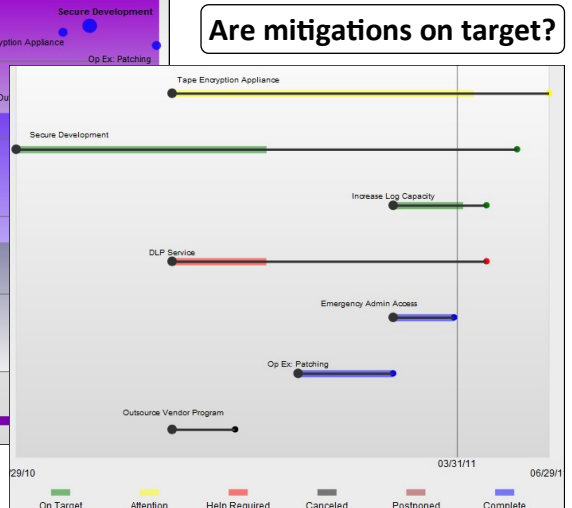

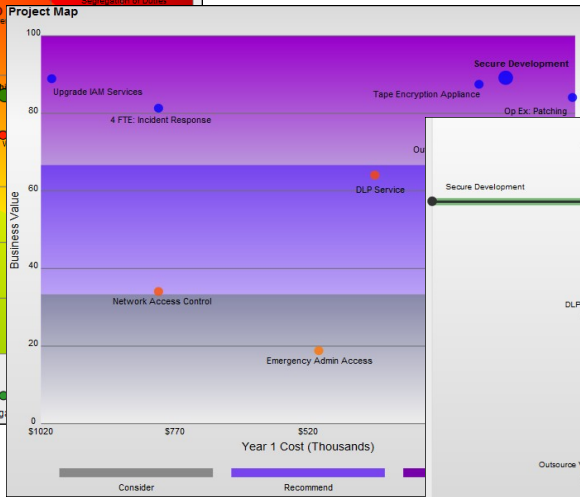

#### Benefits

- Efficiently Demonstrate Compliance
- Consistently Assess Emerging Risks and Solutions
- Effectively Communicate with Stakeholders

## Risk Communicator & Risk Register

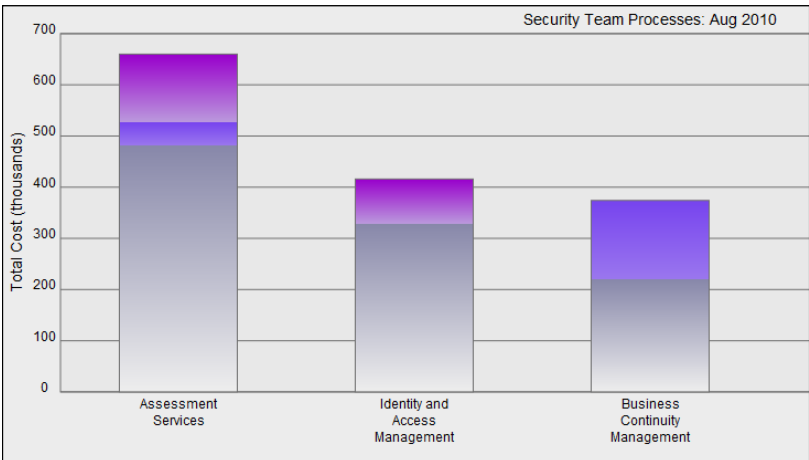

What are the primary risk drivers?

## Metrics & Service Manager

Metric Status Table		
Title	Status	Trend
Master Security Index	-6	↓
Workstation Monitoring	-22	↓
Audit Mitigations Complete	+5	↓
Security Policy Exceptions	-75	↑
Incident Response	0	↔
Security SLAs	-18	↓
Front Office Devices Managed for Security	+5	↔
Back Office Devices Managed for Security	+8	↑

What's acceptable risk?

Where do we spend our time & money?
